

Articulation Agreement

between

College of Applied Technologies

and

Institution: _____

Address: _____

Phone: _____

Power Equipment Technology Program

The University of Northwestern Ohio believes that many high schools and career centers have extensive course work in technical areas that give students a solid foundation for college study. Students who have these technical skills may be granted college credit for their proficiencies.

A partnership agreement between the university and the high schools and career centers is appropriate to recognize and reward those graduates who have acquired the skills for proficiency credit in our Agricultural Equipment program for HY 130 Hydraulics course. The university will grant advanced placement to high school graduates who fulfill course requirements agreed to in this document.

The advantages to advanced placement:

- There will be no expense to the student
- It will reduce the total tuition expense, book fees, and housing costs for your college program.
- It will reduce the time necessary for completion of the program.

The decision on advanced placement will be determined by the following University of Northwestern Ohio authorized personnel: Provost / Vice President for Academic Affairs and the College Registrar.

Awarded credit to a student will be decided on an individual basis. Awarded credit will be reflected on the students' transcript after completion of the first term.

To take advantage of this agreement, the student should:

- Contact the Admission Office at the University of Northwestern Ohio for a formal admissions application to the university (419)998-3120.
- Pick up the Articulation Application from myself or your high school counselor. You can also call the University at (419) 998-3120 and have the application form mailed or e-mailed to you.
- The form should be taken to the high school where it should be completed and approved by the student's instructor and counselor. The student will also be required to sign the form stating the he or she has had the necessary training and has met the attached learning outcomes.
- After the form has been signed by the student, approved by the student's instructor and counselor, and the school's chief administrator signs the form, it should be mailed to Admissions at the University of Northwestern Ohio.
- After the materials are reviewed by University personnel, the student will be notified if advanced credit has been awarded.

COURSE AND CREDITS FOR ADVANCED PLACEMENT

HY130 Hydraulics (6 credits)

Graduate of an Power Equipment Technology program with a "B" or better grades. The attached learning outcomes must have been met. Awarded credit will be reflected on the students' transcript after completion of the first term.

CATALOG DESCRIPTIONS OF COURSES LISTED

Power Equipment course

HY130 Hydraulics (6 credits)

Basic fluid power and various types of hydraulic pumps, motors and controls, including electro-hydraulic controls, cylinders and hydrostatic drive units are examined. Diagnosis and repair of different types of hydraulic systems and individual components will be covered.

- * **All Articulation Agreements will be revaluated every five years, to assure all students are getting, and have the necessary information to have credit granted to them.**
- * **All schools desiring to articulate classes with the University of Northwestern Ohio must meet the attached learning outcomes for HY130 – Hydraulics by attaching documentation such as a curriculum or syllabus.**
- * **If an educational deficiency pattern is detected with a specific high school or career center, said school will have the opportunity to work with UNOH to remedy the concern.**

We, the undersigned representative of the cooperating University and high school/career centers, agree that a student completing career and technical education training in select automotive technology may be eligible for advanced placement credit. Guidelines for acceptance of that credit are covered in this document.
