

ASSOCIATE OF APPLIED BUSINESS DEGREE

AUTOMOTIVE MANAGEMENT

The Automotive Management associate degree prepares individuals for entry-level management positions in the automotive industry. Automotive dealerships have needs for individuals who have strong management skills and an understanding of automotive dealership operations, parts and service management, and the aftermarket in the automotive industry. Courses in this program are focused on these skills and business skills that effective management personnel need in the automotive industry.

Upon graduation, students will have acquired the skills to be able to secure positions as assistant service manager, parts and service consultant, service advisor, service manager, and general manager.

MISSION STATEMENT:

The Automotive Management Department's mission is to provide a quality education from its diverse courses, developing students into a knowledgeable and productive work force prepared for an entry-level management position.
