<b>Total Credits Required Bachelor of Science Degree</b>	<b>180</b>	<b>60 (SH)</b>	<b>90</b>

**\*\*60 Semester hours are equivalent to 90 Quarter hours\*\***

*\*Special Note: It is recommended that EN200 Composition II be taken prior to several of the 300 and 400 level courses in the Specialized Studies degree. The Specialized Studies degree requires students to write research papers, and EN200 will teach students how to write them properly.*

Algebra MH190 is the foundation of Finite Mathematics MH310 for the Specialized Studies degree. Students with a CCAF Associate degree who do not have a background in Algebra are recommended to take this course.

**Lower level courses such as EN200 or MH190 do not apply toward the 90 required upper-level credit hours for the bachelor's degree.**
