VERIFICATION/INCOMPLETE DOCUMENTATION

Documentation Required for Financial Aid

[Upload Documents](#)

Your FAFSA is selected for a review process called verification. Each year about 18% of all FAFSAs are selected for verification by the Department of Education to ensure that your eligibility for financial aid is accurate. The verification process means that you must take a few extra steps to confirm the information you reported on your FAFSA before you can receive any financial aid funds and is a Federal Regulation requirement. **Please keep in mind that this is a normal part of the financial aid process.** Our financial aid staff will work with you to answer any questions you may have.

Please submit the following verification requirements to the financial aid office as soon as possible, preferably within two weeks of your initial notification to allow for timely processing. Failure to provide documentation on time will result in the inability to receive financial aid by your Academic Year start term, and you will be financially responsible for Institutional charges. By submitting the requested information, you are authorizing the financial aid office to make any necessary corrections to your FAFSA for submission to the Department of Education. Financial Aid eligibility or changes to eligibility will be provided to you via a Financial Aid Offer within three weeks of receiving a corrected FAFSA transaction, if eligibility amounts are provided to the school by this time from the Department of Education. Please submit the following:

 2026/2027 Dependent Verification Worksheet	▼
 26/27 Parent's 2024 Tax Return	▼
 26/27 Parent's 2024 W-2 Forms	▼

MAINTAINING FINANCIAL AID

Qualitative Measure: The performance measure of a student's progression towards program completion. This is measured by G.P.A.

Quantitative Measure: The rate of time measure of a student's progression towards program completion.

- Pace = Measure of a student's progress through his program to graduate within a specified period time. This is measured by comparing the number of credit hours completed to the number of credit hours attempted. Students must meet a 67% completion rate or higher to meet SAP standards.
- Max Time Frame = Maximum time allowed to complete a program, which can be no greater than 150% of the published program length. If a student is meeting the 67% pace completion, the student should meet Max Time Frame standards.

The following policy for satisfactory academic progress is being provided to students in accordance with Federal law. Students are expected to assume the major responsibility for their own progress and to carefully review these guidelines to maintain these standards required for their own individual eligibility and aid continuation.

Undergraduate Students

Students who receive Title IV financial aid must maintain satisfactory academic progress while attending the University of Northwestern Ohio in order to continue their financial aid assistance. Students must maintain a cumulative grade point average (g.p.a.) at or above the minimum standard described in the scale below. Students must also complete a cumulative minimum of 67% of their attempted coursework for the quarter or session. In addition, students must also graduate within 150% of the time required to complete their program. Students enrolled in a program longer than two academic years must obtain a 2.0 at the end of their second year. The second year of completion is defined as the length of time a student has been enrolled (12 Sessions or 6 Quarters).
